

La Canal, San Francisco de Paula  
Ibiza, Balearic Islands.

July 22, 2015.

Reference: commitment to quality and origin.

By means of this letter is noted that the salt extracted and produced in our Ibiza factory comes from the elements and natural processes provided by the Mediterranean Sea, which is obtained by manual removal harvest, so that the properties of the salt always remain unchanged, having all the time a level of optimum quality.

Remain at your disposal for any further information, yours faithfully.

José María Fernández Ramos  
Director
